

# The 2013 UN-GGIM GGRF Global Questionnaire

## Data Sharing

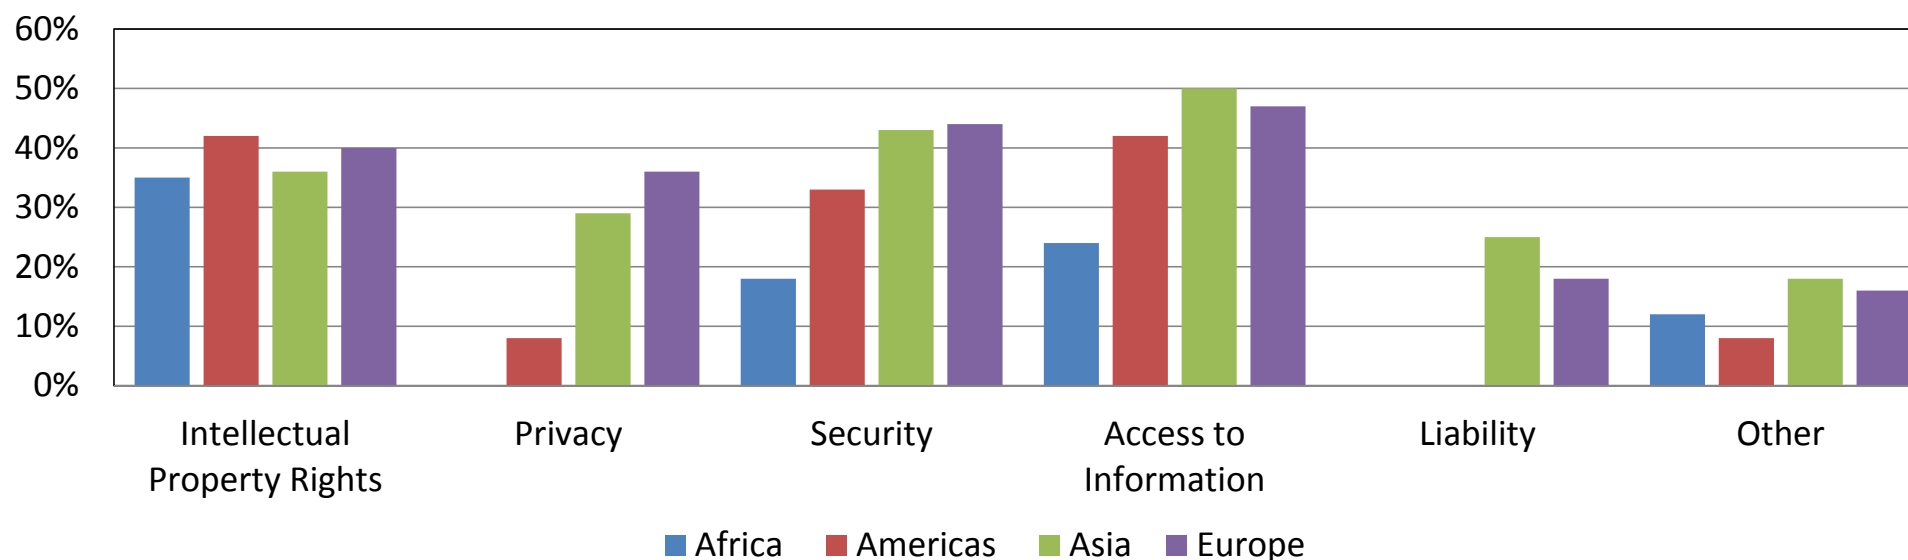

Dr John Dawson

- In preparation for the UN General Assembly Resolution a global questionnaire was conducted on global geodesy
- 102 survey responses received (50% response rate [102/197])

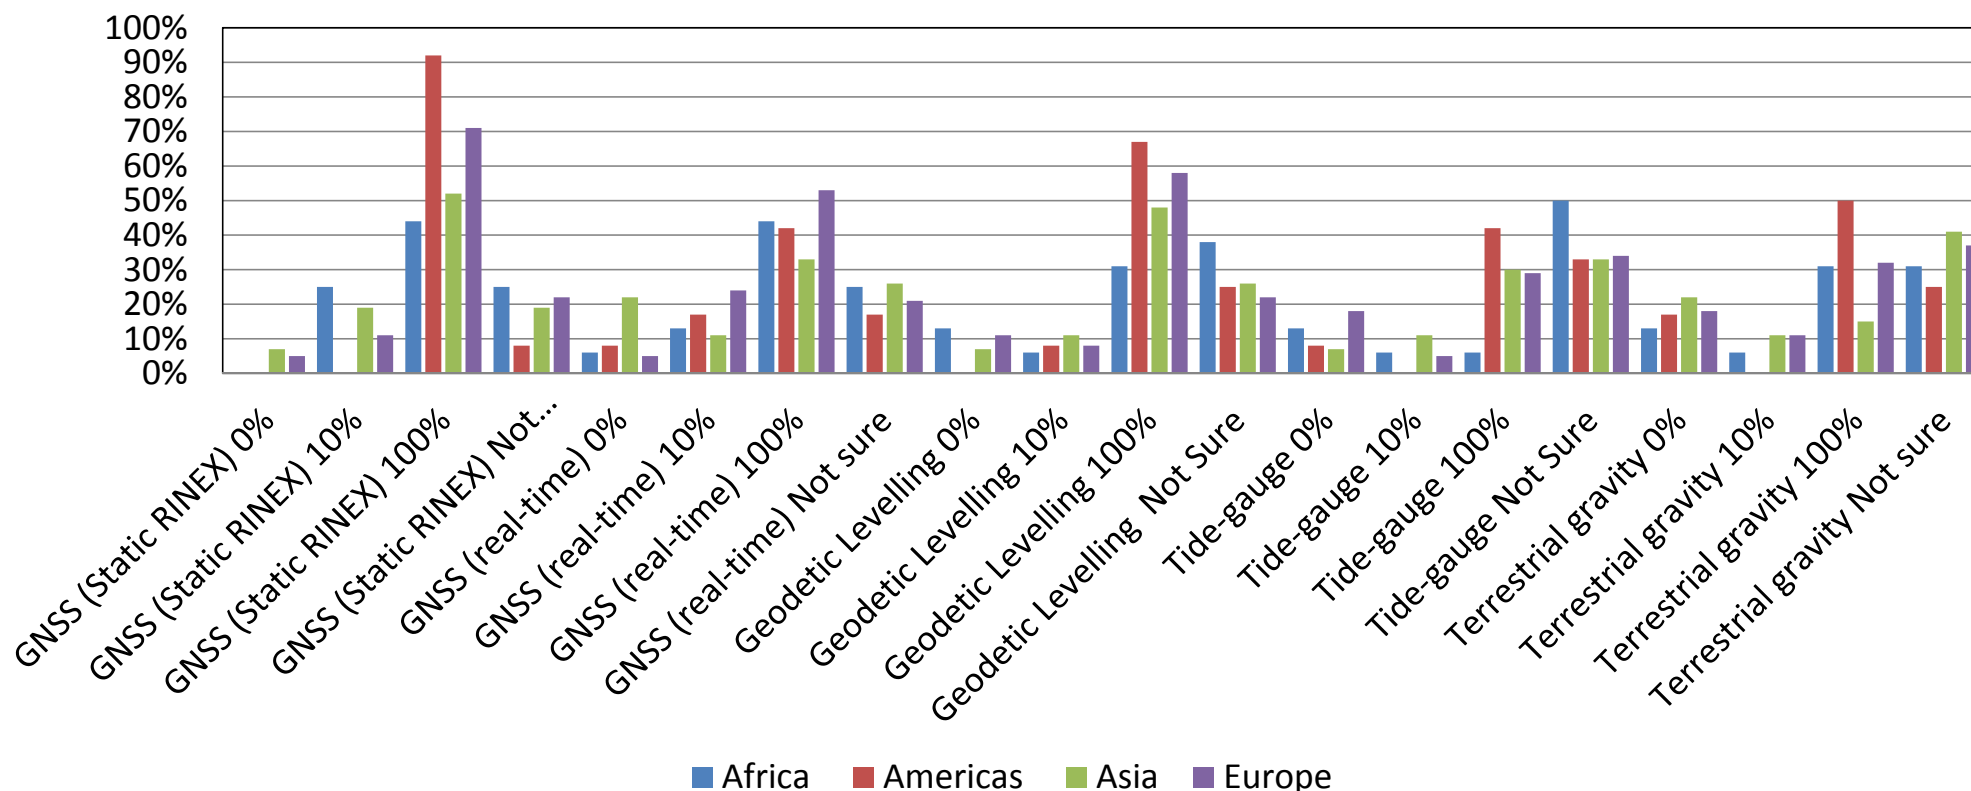

Continent	Number of surveys received	% of surveys received
Africa	17	32%
Americas	12	34%
Asia	28	47%
Europe	45	92%
<b>TOTAL</b>	<b>102%</b>	<b>52%</b>

### % of responses to Q11: Existing law, policy or regulations that apply to the management of your geodetic information

- 62% indicated having something in place for the accessing of information
- 55% indicated something in place for Intellectual Property Rights and Security

**% of responses to Q13: What is your country's attitude to providing international access to geodetic data? Specifically, what percentage of total data that potentially can be shared internationally?**
